

## DENTISTRY

Linda Stone, Gentle Caring Dentistry  
The Possibilities are Endless

While Dr. Linda E. Stone may be familiar to many as the genius behind Gentle Caring Dentistry and the architect of some of the nicest smiles in the area, she is also dedicated to providing support and encouragement for professional women interested in starting their own careers.

Dr. Stone is a true entrepreneur and was at the fore-front of women in the dental industry when she began her career path in 1982. She saw the need for a new kind of dentist, a doctor empathetic and compassionate enough to work with patients who experience significant stress and anxiety when visiting the dentist. As a consequence of their fears, these patients avoid needed care and suffer both physically and socially. Seeing a chance to help those patients change their lives for the better inspired Dr. Stone to open Gentle Caring Dentistry in the 90's.

In her new practice, she combined her cosmetic dentistry skills with her unique understanding of patient concerns to provide an environment in which the most nervous patients are able to relax and receive much needed care without pain or fear. Since then, she has been responsible for helping people regain control of their lives by providing them with the smile of their dreams.

## COMMERCIAL FLOORING

## Karen Rossilli-Kiefer, PAR Flooring, Inc.

Envision a professional installation of design driven commercial flooring and most likely PAR Flooring, Inc. was behind the concept for the project's interior package. The "secret sauce" behind the success of PAR Flooring, Inc. and PAR Solutions, Inc. is their ability to value engineer commercial finishes to increase performance, while decreasing construction and maintenance costs. Karen Rossilli-Kiefer and "TEAM PAR" have earned the title "The Educated Dealer" in the commercial real estate industry for being a respected ROI Expert. From flooring solutions to interior design boards, bid leveling and value engineering services, PAR has the experience to add value to your next project through cost-controlled interior design. Since 1992, this Certified WBE & SBE Contractor has put their clients' needs above all by utilizing a team approach, driven by client experience management. PAR enjoys uncovering the challenges which prevent a project from moving forward and fixing it through creative cost controls. Centrally located in Morristown, NJ, PAR Flooring, Inc. & PAR Solutions, Inc. service the entire State of NJ and NYC Metropolitan.
