Think Different!!!

We all know the catchy phrase "April Showers brings May Flowers" and head into Spring with the thoughts of the "Spring Cleaning" we need to accomplish to get our homes and wardrobes ready for the seasonal change; but do we actually absorb their meaning and start anew as the leaves return to the trees?

This Spring, let's think different!

We are all aware of green practices and incorporate smarter choices into our decision making during project renovations; but technology advancements have offered cutting edge solutions in the commercial flooring industry that can help you achieve your recycling initiatives and breathe easier this Spring. ***These decisions will make you feel good, and the best part, they do not cost you a penny more to implement than the traditional way of doing things!***

VCT Recycling Program: Armstrong has created a VCT recycling program that has ZERO COST to the contractor or building owner. The old materials stay out of landfills, thus

reducing environmental impact and even contribute to LEED credits. This recycling program is available for projects encompassing 8,000 SF or larger and Armstrong takes back all types of VCT... Armstrong brand and their competitors! Call 877-276-7876 (select option 2, then option 7) or call PAR Flooring and we will handle this process for you!

Not low VOC. but NO VOC! Adhesive Free Installation Methods: Both resilient and carpet manufacturers alike have invented unique installation methods that enable commercial materials to be installed adhesive free, while maintaining their full useful performance and industry warranties.

Interface, a leading carpet tile manufacturer, has created Tac-Tiles. These revolutionary, glue-free adhesive squares adhere tiles to one another and create a "floating" floor. There are no liquid

components, so VOCs are virtually eliminated and there is no odor. TacTiles connectors let you install carpet almost anywhere, any time.

Mannington, a leading carpet and resilient flooring manufacturer, has created Natures Path Lock Solid. This proprietary glue-less locking system saves installation time and money,

provides superior hold strength, and is backed by a No Gap Warranty. This product features Quantum Guard HP, a patented urethane wear layer with

SPOTLIGHT

PAR FLOORING WILL BE AN EXHIBITOR @ THE LEADING AGE NJ ANNUAL MEETING & EXHIBITION

PAR Flooring will be an exhibitor @ the Leading Age NJ Annual Meeting & Exhibition taking place in Atlantic City on May 29th – 31st. We are excited to show fresh

aluminum oxide cured by UV process. It provides exceptional wear resistance, stain resistance and lowers maintenance cost with a no polish, no buffing maintenance option.

Let PAR Flooring help you think different. We can review your flooring systems and maintenance costs and introduce you to solutions that are more cost efficient, eco-friendly and easier on your maintenance budget. That is a great return on your investment!

PAR Flooring is your educated dealer... Call us today for a free assessment of your space! **973-292-0089.**

flooring solutions to the elderly care professionals that manage assisted living, nursing home and senior housing facilities throughout the State of NJ. We hope to see our facility manager friends @ the show! Check out this industry related group!

Karen's Corner

"We are what we repeatedly do. Excellence, therefore, is not an act but a habit"

~ Aristotle

We set New Year's resolutions every January with the best of intentions. By April they are long forgotten if we had not found a way to implement them into our daily routine. Brush off your list and find the resolve now. Think of it as "spring cleaning" for your mind, body or spirit. Why not make yourself proud by accomplishing something that will make a positive impact in your life. Put yourself first this spring!
