

Spring: Season Of The Colors

2017 Color Trends:

Poised Taupe is the 2017 "IT" Color by Sherwin Williams & Shadow is deemed the "COLOR OF THE YEAR" by Benjamin Moore.... And TeamPAR thinks they are both yummy! They are clean neutrals that play well with others. They are not the tried and true beige and tan hues that look tired or the pale greys and silvers that are too cool toned for some peoples tastes. Poised Taupe and Shadow both work with warm and cool accent colors and are satisfying from classrooms to boardrooms.

Check out the HOT 2017 Color Palettes and add some color to your life! Your friends @ TeamPAR are happy to help you spruce up your environment --- from your Lobby, Cafeteria or Conference Room to the creation of a Wellness Room, Huddle space or Innovation Room for your staff to think out of the box --- lean on TeamPAR and we will help you reach your atmospheric goals on any budget!

Green Blog

Your Space Looks Good in Green

Going green is trendier than ever, and for good reason. Each eco-friendly choice you make over the course of your construction project helps lead to a healthier living and working environment and ensures energy and resource efficiency. Not only is a "green" space greatly beneficial for the environment, it can also save you lots of money in energy costs over the long-term.

Here are four sustainable strategies to implement when planning, designing and selecting products for your project.

1. LED Lighting
2. Recycled Carpet Tile
3. White Board Wallpaper
4. Reclaim & Reuse

Karen's Corner

Lean & Mean.... IS NOW Lean & Meaningful. The office environment was originally an employer powered machine with both eyes focused on profitability. Today, one eye is on the bottom line and the other on the people as administrators walk a tightrope to come up with a focused and balanced vision. People will always need to earn a paycheck and some will sadly see the 40 + hours a week they spend at work as merely a "job", but the generational shift in the workplace that is most significant is that the experience does matter. Lean & Meaningful does give employees a voice and power, but in my opinion, it pays extra dividends on the backend --- with loyalty and team retention. Check out this Forbes article to dive deeper into this topic:

Recap of TeamPAR's 2017 Business Crushes # 5 – 8:

TEAMPAR'S CRUSH OF THE WEEK

5. Tim Moore is TeamPAR's 5th of 8 Business Crushes of 2017! Tim is the Director of Operations at The Pennington School and is simply fantastic! With years of hands on construction experience he is the king of multi-tasking.... Putting out multiple fires at a time! TeamPAR respects his years of knowledge and easy smile and is proud to call The Pennington School a client.

7. Len Tempest is TeamPAR's 7th of 8 Business Crushes of 2017! Len is the Director of Facilities @ Centenary University. Len has a classic education in architecture and wants to raise the bar with every project he manages. He is righteous in his beliefs and passionate about his work. We are proud to follow his lead and be one of his contractors helping to renovate Centenary University, one project at a time.

8. Lou Quiroz is TeamPAR's 8th and final Business Crush of 2017! Lou is a Project Manager at Drill Construction and has been a good friend of PARflooring's for over a decade. Lou does business the right way. He answers his phone, treats his sub-contractors with respect and pays his bills in a timely manner. TeamPAR, Lou and Drill Construction all share many core ideologies.... But Value Engineering to ensure their clients receive the best products for their needs is one that is front and center on every project we both complete. We always "make it happen" together and we appreciate your trust in our abilities.
