As 2017 winds to a close, take some time to reflect on your achievements and moments that brought you laughter and true happiness. We thank you for the opportunity to serve your commercial interior design and commercial flooring needs throughout the year and offer you this holiday coupon to save you money before year-end.

Call us in the remaining days of 2017 and commit to a project in 2018 and we will sweeten the pot and help you stretch your New Year's dollars further. Let's get creative, together.

Outstanding Philanthropic Dedication Award

We are honored that TeamPAR, Inc. has been awarded the **Outstanding Philanthropic Dedication Award** by [CREW-NJ](#) for our 17 years of dedication to the [Jersey Battered Women's Service](#) through our TeamPAR annual Toy Drive. TeamPAR President, Karen Rossilli-Kiefer, has been a member of CREW-NJ since 1999 and started CREW-NJ's monthly philanthropic efforts to benefit various worthy local charities. Here are some photos from last night's annual holiday party where Karen accepted the award.

Employee Spotlight: Jamie Connolly

Jamie joined TeamPAR in June as our Chief Juggler and Project Manager. He puts out fires with a smile and calm demeanor. He made it through our busy season with his humor still intact - he is a keeper! You may have noticed that his last name is the same as TeamPAR's longest-tenured employee, Wayne. Yes, they are now a father and son team! Reach out to [Jamie](#) and introduce yourself and connect with him on [LinkedIn](#), too!

What is a Wellness Room?

There isn't a singular definition of a wellness room but they are becoming more and more commonplace in Corporate America.

By law, Section 7 (r) of the Fair Labor Standards Act requires adequate break time for nursing mothers for one year after the child's birth and the allocated room must be other than a bathroom and shielded from view. A minimum footprint of 7 feet by 7 feet is recommended as it allows for a 5-foot ADA radius circle with a 24-inch deep counter. Milk storage, sink, sound privacy and physical privacy are all fundamental to create an efficient and restful pumping session. Today, with over 75% of new mothers in the USA choosing to breastfeed, the addition of a Mother's Room increases the employer's ROI three-fold. Click below to read more:
