## PARLEE'S CORNER

### TeamPAR's Wish List for your CRE property to make 2021 brighter!

Hope is still very much alive, and people inherently want to be useful, productive, and appreciated. COVID-19 will not destroy capitalism in America, but we must continue to re-invent ourselves and rise to the challenge. Leaders lead by example. What is your goal for 2021? TeamPAR is ready to help you achieve it!

**T**echnologically driven environments that create touchless entry points and user interactions.

**W**ork from home practices that increase your ROI and decrease your overhead costs and outlast the pandemic.

**E**levation of your cleanliness practices by implementing surfaces that kill micro-bacteria upon contact.

**N**ature inspired designs... Bringing biophilia indoors to decrease anxiety and increase productivity.

**T**eam-building practices that create collaboration and bring your company culture to the forefront, while training the next generation.

**Y**ellow walls to brighten your spirits!

**T**hird spaces is a newer trend that bridges the "home" and "work" environment and is the key to unlocking employee productivity and potential by providing campus amenities that allow employees to work in styles that are most natural to them. Create a neighborhood of choice!

**W**ellness in the workplace --- from Mother's Rooms to Relaxation Rooms!

**E**nvironments that promote safety, both actual and perceived.

**N**etworking is key. Collaborate with vendors and like-minded professionals and take a pulse across the industry to stay ahead of the curve.

**T**ime stops for no one. Don't waste this opportunity to re-invent your office environment, creating new revenue streams and streamlining your process to transcend future obstacles.

**Y**es, to the internet of things. The vaccine will not stop the automation train that has left the station. Embrace technology and invest in your company's automation, big data, and remote capabilities.

**O**ptimize open office environments to include segmented areas that promote collaboration safely.

**N**ew furniture, flooring, and walls! Use this time to refresh and rebrand!

**E**rgonomics is a trend that transcends time. Standing desks and chairs that properly support will decrease sick-time and increase productivity --- thus, an investment will worth it!
